

معامل مبرة العصافرة

Mabaret El Asafra Laboratories

Patient Name:	El Sayed Ibrahim El Sayed Hussein	Acc No.:	1149047
Referred By:		Reg. Date:	29-12-2022 16:33
Branch:	El Asafra	Sex: M	Age: 9 Y 0 M
		Rep. Date:	

ROUTINE AUTOIMMUNITY

ESR (First hour)	<input type="text"/>	mm/hr	(N. less than 13)
(Second hour)	<input type="text"/>	mm/hr	
ASO *	<input type="text"/>	U/ml	(N. less than 200)
Anti DNase B (for streptococcus)	<input type="text"/>	U/ml	(N. up to 375)
CRP *	12.4	mg/L	(N. less than 3)
RF *	<input type="text"/>	IU/ml	(N. up to 15)
Rose Waaler test	<input type="text"/>	IU/ml	(N. less than 6)
LE Cells	<input type="text"/>		(Negative)
Amyloid A protein **	<input type="text"/>	mg/L	(N. up to 6.8)
Fibronectin	<input type="text"/>	mg/dl	(N. 25 - 40)
Pre-Albumin	<input type="text"/>	mg/dl	(N. 20 - 40)
Serum Alpha1- Antitrypsin	<input type="text"/>	mg/dl	(N. 110 - 280)

Remarks:

- * ASO, CRP and RF testing is carried out by fully automated nephelometric technique. If follow-up is recommended, it should be done with the same method, as latex technique yields totally different results.
- ** Amyloid A Protein is NOT SPECIFIC for FMF (Available upon request PCR for FMF mutations)
